

Many people followed Jesus to listen to his words. In the evening, the people were tired and hungry. Jesus then told his disciple Philip.

“Can you give all these people food to eat?”

Philip told Jesus, “There are too many people and it will cost too much money.”

The disciples traveled here and there and asked questions.

“Does anyone have food to give?”

Everyone shook their heads and stared at the disciples.

At that time Andrew brought a child to Jesus.

“This child has five loaves of bread and 2 pieces of fish. But this isn’t enough!” There were over 5000 people gathered there. Jesus made them bring the fish and the bread. Jesus blessed the food, and shared the food with everybody there.

Everyone ate until they were full. But the fish and the bread did not run out. In fact, they were able to fill 12 baskets with the leftovers. The people saw this miracle and loved Jesus even more. But Jesus sent everyone away and spent time alone.

Namwoo had 4 pieces of his favorite snack. But there was a problem. Nate had four friends, and if he wanted to share, one friend wouldn't get any. Namwoo wanted to share, but Namwoo wanted to eat the snack, too.

Namwoo decided to share the snack with all of his friends. Namwoo even shared with Charlie, the friend who had been making fun of him. Charlie was very glad to receive the snack from Nate. The next week, Namwoo's friends brought snacks of their own and shared it with Namwoo. Namwoo shared the snacks he got with other friends too. When he did that, he got even more snacks back! Namwoo was amazed.
