

God created animals. The long necked giraffe, the big mouthed hippo, the strong bear, the horned rhino, and the long nosed elephant were all God's creation. God made big animals and small animals.

God created cute puppies, kittens, and bunnies as well.
We do not bother animals that are smaller and weaker
than us. These are all created by God.

Growing, still growing!

Namwoo and his mother watched over the plant. They watered it and made sure it got plenty of sunlight. The sprout continued to grow.

“Mom! It’s grown so much! It’s the size of my finger already!”

“The sprout is growing so well because you’ve been taking care of it everyday with love. God is watching over us and taking care of us, too. What love did God give you to help you grow?”

Joyful Activity

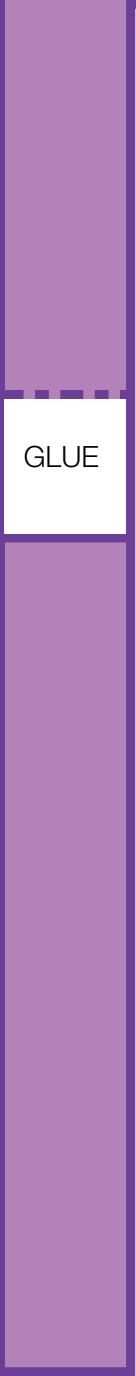

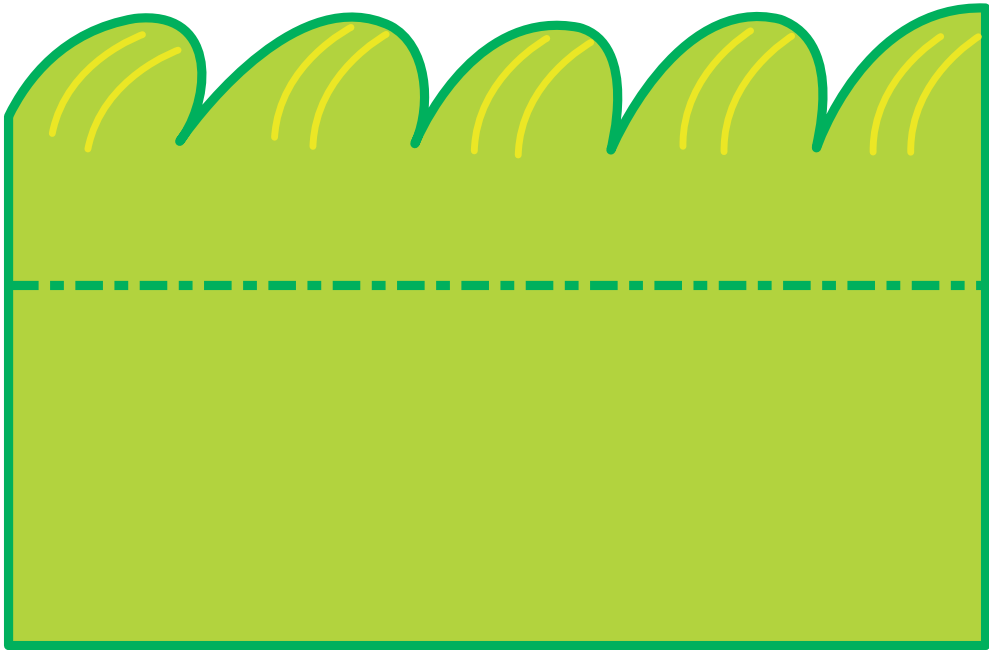

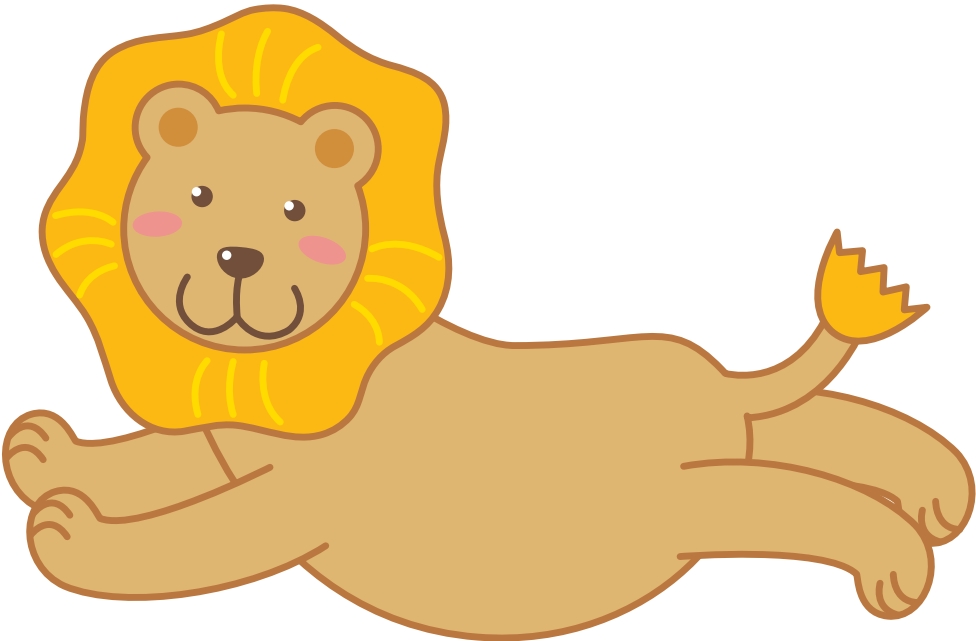

Many animals have different patterns! Name the four animals below and match up their patterns.

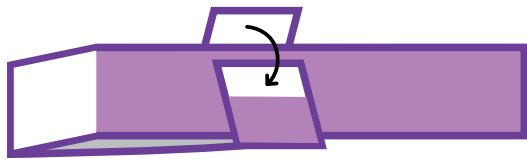

Make a running lion!

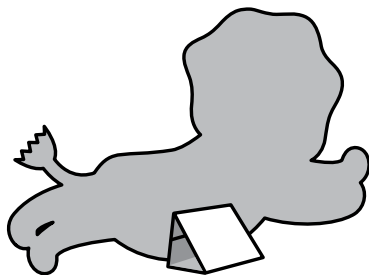

FUN CRAFT

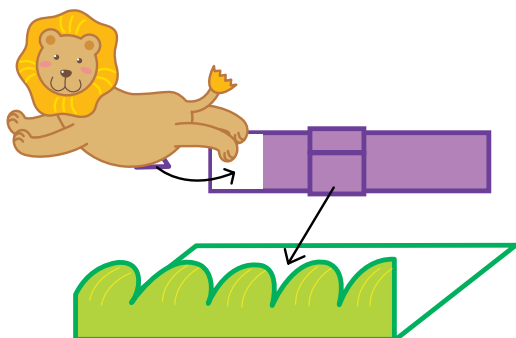

Directions: How to make the running lion!

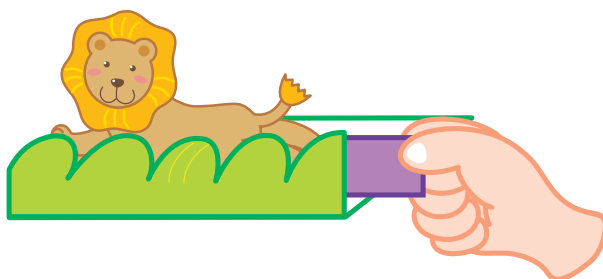

1. After cutting everything out, apply glue and paste the straps together.

2. Paste the small strap to the cutout lion.

3. After folding the grass so it faces upwards, glue the long strap and the ring together.

4. Pull the strap that pokes out of the grass. Make your lion run!
