

There were once again many people.

Everyone gathered in one place.

“Let’s build a tower to the heavens that will make us great!”

“Bring the bricks!” ”We’re fine without God!”

The people started to build the tower.

God saw that they were prideful and said, “I will confuse their language so that they will not be able to build the tower anymore.” A strange thing happened.

“How do you do?”

“はじめまして。”

“뭐라고? 무슨 말이야!”

The people couldn't understand each other. They stopped building the tower and separated. That place was called “Babel”. From that point on formed many countries and languages.

## **God's skill**

Namwoo went over to Allie's house. As they played, the dog happily wagged his tail. "Hey, your dog is pretty ugly. Let's play with dirt. I bet I could make you a better dog." "What do you mean? My dog is so cute!"

“It is really hard to make dogs. Help me, Allie.”

Namwoo and Aram made dogs out of dirt and clay. But something was different.

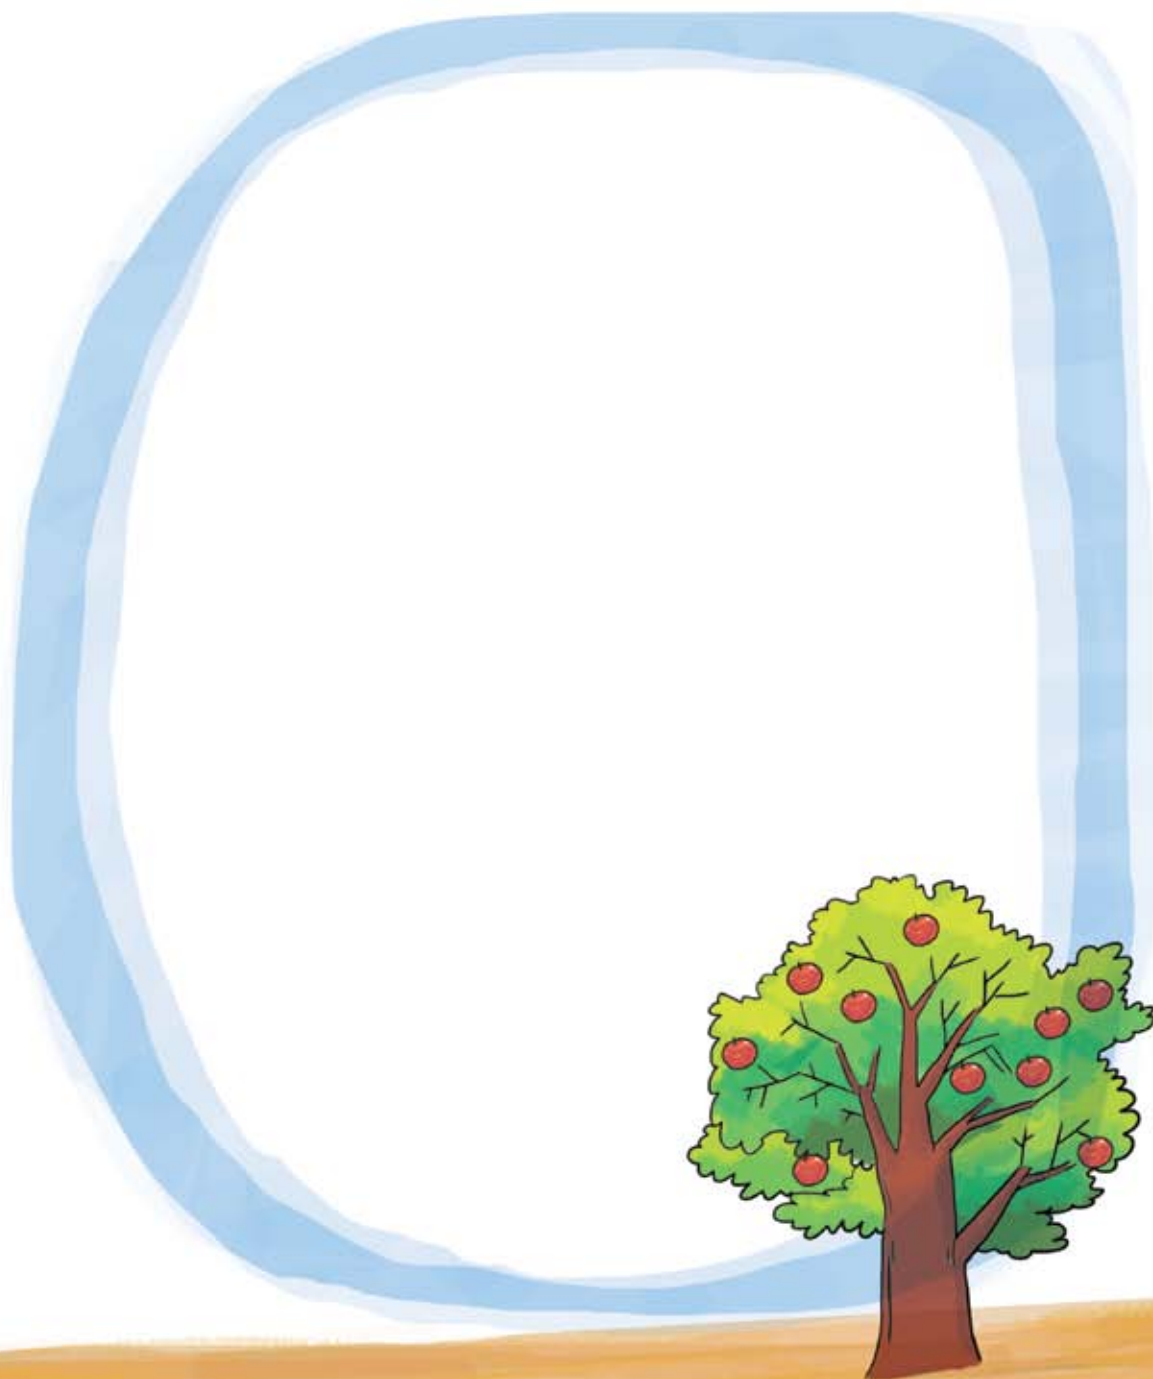

“It’s strange, Aram. Your dog can play and do tricks and wag its tail. But our dogs can’t.”

What was the difference between the clay dogs and Aram’s real dog?

All children are new seeds. Just like all the seeds of the world have different shapes and sizes, We have different faces, personalities, and actions. What kind of tree do you want to become?

Draw what kind of person you want to become in the future.

Think about the things you will need and the things you will have to do to become a really good child.
