

God created many different types of fish.

Each fish has a different shape, size, and color.

These fish swim in oceans, rivers, and lakes.

Whales are very big! There are some whales that are bigger than houses. When it is time to lay their eggs, salmon swim all the way back to where they were born.

Sharks have sharp teeth, dolphins are very smart, flying fish leap out of the water, and sea horses look like horses!

It grew!

“Wow! The seed grew! There’s a sprout!”

“You are so happy! Your mom and dad was, too, when you were born. God is really happy too whenever someone is saved. God is always happy, when someone is born again and can go to heaven! I hope you will listen to God’s word and learn a lot, too!”

Joyful Activity

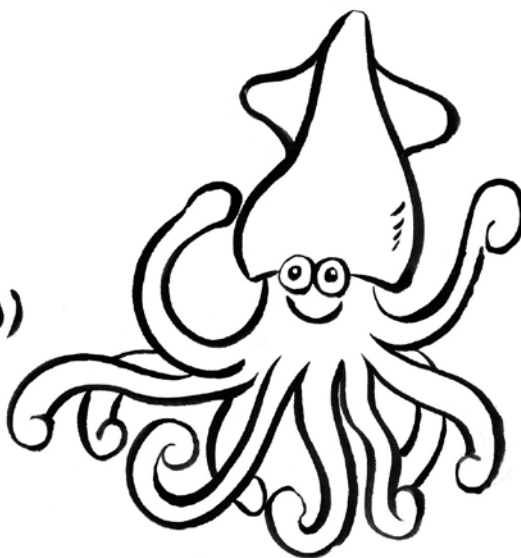

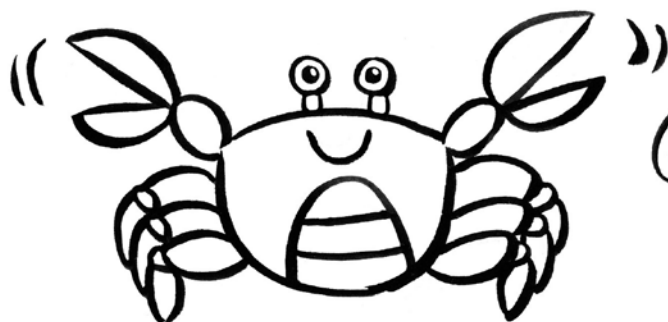

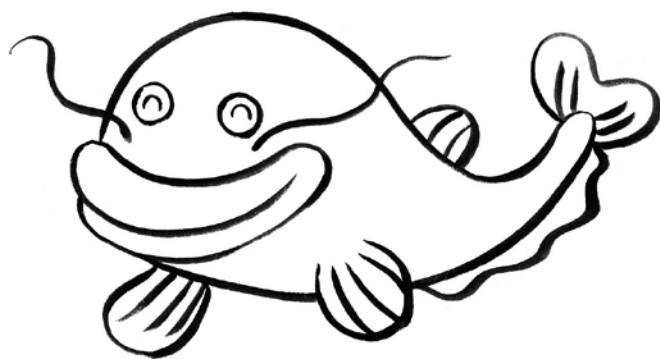

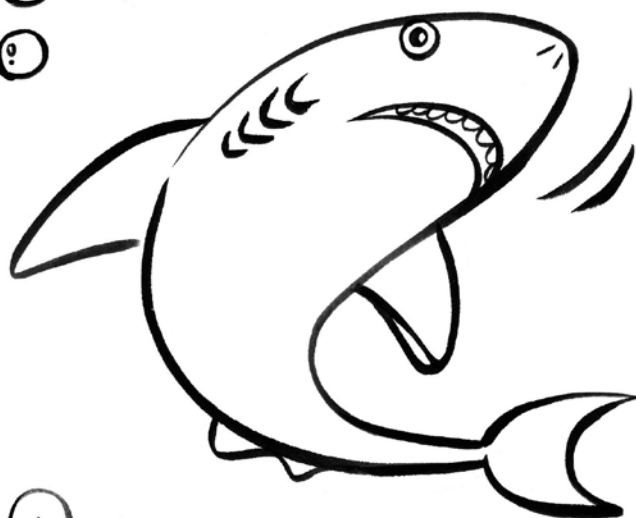

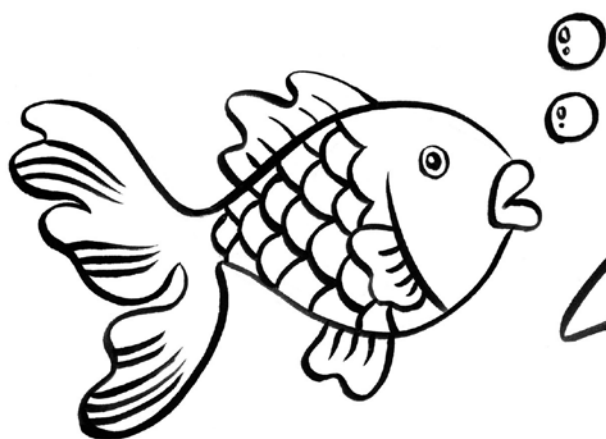

Make the animals colorful! Match the colors with the animals are in the box.

Red crab

Blue shark

Green squid

Yellow goldfish

Memory Verse

Trace this verse:

You made the heavens
the sea and all
Nehemiah 9:6

Write this verse:

To Teacher

To parents
